

Comparative Table of Industrial Adhesive Tapes

Key Factor	Kraft Tape	Acrylic Tape	Hot Melt Tape
Adhesive Type	Starch/water-based (or hot melt in some cases)	Acrylic (water-based)	Synthetic rubber (hot melt)
Initial Adhesion (Immediate Grip)	Medium – High	Medium	Very high
Strength for Heavy Boxes	High	Medium	Very high
Resistance to Vibration/Transport	Very high	Medium	High
Tear Resistance	Very high	Medium	High
Long-Term Durability	High	Very high	Medium
Resistance to Temperature/Climate	Medium – High	Very high	Medium
Line Application (Automation)	Medium (requires equipment if water-activated)	High	Very high (ideal for high-speed lines)
Security (Tamper-Evident)	Very high	Medium	Medium
